Dear Martin/Robert,

We are all too quick to complain when something is not carried out to an exact measure, but rarely praise a job that is well done.

I would like to thank you and your engineers very much for the erection of our steel building and the initial groundwork together with planning and structural calculations.

I was extremely impressed with the professionalism, friendliness and diligence of you and your staff.

The work was carried out as and when required and erected to a very high standard.

I would also like to mention the aftercare is excellent and you do not shy away from giving further advice.

Yours sincerely,

A handwritten signature in black ink, appearing to be 'H Peter Rai', is written over a faint circular stamp.
